

Odborné články 2014

Šklíba J., Lövy M., **Hrouzková E.**, Kott O., Okrouhlík J., Šumbera R. (2014) Social and Environmental Influences on Daily Activity Pattern in Free-Living Subterranean Rodents: The Case of a Eusocial Bathyergid. *Journal of Biological Rhythms* 29(3):203-214.

2013

Hrouzková E., Dvořáková V., Jedlička P., Šumbera R. (2013) Seismic communication in African mole rat *Tachyoryctes daemon* from Tanzania. *Journal of Ethology* 31(3): 255-259

Bednářová R., **Hrouzková-Knotková E.**, Burda H., Sedláček F., Šumbera R. (2013) Vocalizations of the giant mole-rat (*Fukomys mechowii*), a subterranean rodent with the richest vocal repertoire. *Bioacoustics* 22(2): 87-107

2012

Šklíba J., Mazoch V., Patzenhauerová H., **Hrouzková E.**, Lövy M., Kott O., Šumbera R. (2012) A maze-lover's dream: Burrow architecture, natural history and habitat characteristics of Ansell's mole-rat (*Fukomys ansellii*). *Mammalian Biology* 77(6): 420-427

2009

- **Knotková E.**, Veitl S., Sedláček F., Šumbera R. and Burda H. (2009) Vocalization of the silvery mole-rat, comparison of vocal repertoire in subterranean rodents with different social systems. *Bioacoustics* 18(3): 241-257
